

MEET THE **SOLIS POCKET**

Winnebago's most affordable camper van, the Solis Pocket® is designed for life on the go, with extended-season capability and flexible floorplans you can customize for relaxing, working, or socializing.

Versatile Living Space

The heart of the Pocket living space is a comfortable dinette that easily changes from dinette to sofa, daybed, love seat, or primary sleeping space for the 36B. Each floorplan also incorporates an adjustable/removable table and swivel cab seats, as well as a multitude of storage options. The 36B's rear wet bath can be transformed into the ultimate mud room after a hard day of adventuring, or used as additional storage space for gear.

Flexible Galley

Offers functionality inside and outside the coach, with exterior table, stainless steel sink, two-burner cooktop and a compressor-driven 3 cu. ft. refrigerator that faces forward for easy access from inside or out.

Cross-Coach Murphy+ Platform Bed

This 36A sleeping space feature is set at a higher point to allow bicycle and other gear storage below the bed using the L-track cargo tie-downs and/or MOLLE panel.

Extended-Season Capability*

The Truma® heating system, extensive proprietary insulation, and interior mounting for the refillable/exchangeable 20-lb. propane cylinder let you camp in comfort when the temperature falls.

Power Up

The available Winnebago® x EcoFlow® Power Kit Pro energy system (36B) combines a compact 5kWh lithium-ion house battery with the exclusive 5-in-1 power management controller to automatically manage inputs - including power from the 190-watt solar panels - charge the battery, and convert and deliver the 12-volt and 110ac power you need.

*Winnebago recommends following the winter use guidelines and winterization procedures outlined in your owner's manual whenever camping in freezing conditions.
